<sup>1</sup> Last accepted creditor reporting period is July 1, 2016 - June 30, 2017. Licenser reporting period is September 1, 2016 - August 31, 2017.

<sup>2</sup> Accreditor allows a completion waiver for those students documented to be unavailable to earn a credential in their programs OR to gain employment in the field/related field due to situations such as pregnancy, other serious health-related issues (physical/mental/behavioral), caring for ill family members, incarceration, death, etc. Licenser does not allow such completion waivers.

<sup>3</sup> Accreditor allows placement waivers for those graduates unavailable to work due to serious health-related issues, caring for ill family members, incarceration, death, or volunteer work with Federal government foreign aid service or official church mission. Licenser allows placement waivers for graduates serving full-time in the military on active duty, those who have enrolled full-time in post-secondary education program, or graduates who are incarcerated or deceased.

<sup>4</sup> Licenser labels this as "Employment Rate" which includes graduates from the institution that are either self-placed in employment or placed in employment by the school; Accreditor does not differentiate placement type.

<sup>5</sup> Accreditor considers the total placement rate to include both completers and non-completers working in the field or unavailable to work divided by those eligible; Licenser calculates "Employment Rate" as the number of graduating students who were employed in an occupation for which they were trained by the program, as a percentage of all students who graduated from the program, not counting those who entered another post secondary education program or the military full-time, were incarcerated, or died.
